

Little paper friends

13 Moko Life characters. 26 outfits. A world to make.

Ready-to-cut edition

1. Print

Use A4 paper, Actual size / 100%, with Auto-rotate enabled.

Keep all pages at the same scale. Do not use Fit to page.

2. Make your characters

Ask an adult to help cut around the solid outer edges.

For stronger dolls, glue the doll section to thin card before cutting.

3. Keep the clothing tabs

Cut around each outfit AND its white tabs.

Only the dashed lines across tab bases are fold lines.

4. Dress them up

Use the two outfits beside each doll, on the same row.

Align the neckline, then fold the tabs behind the doll.

5. Tell a little story

Mix your characters into a cafe, kitchen or shopping adventure.

In the coloring edition, decorate everything before cutting.

 This bar should measure 2 cm after printing.

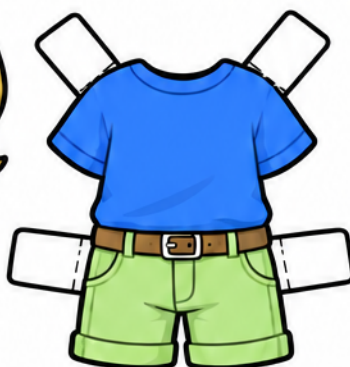

Each character has its own wardrobe. Clothing is not interchangeable between all dolls.

Print one sheet first to check your printer settings, then print the rest.
